

PERSONALIZED EXPERIENCES

Leave the Video Camera at Home!

We will tape all of the routines for you.

At every meet, we see parents trying to video tape their gymnast's routines. Sometimes they turn out fine but often the distance or angle will not co-operate and the video is not what you expected. Sometimes, excitement shakes the camera!

At this meet, let us videotape each routine from a prime position on the floor; upload the complete routine to a private web site and email a web link to you so that you can view the videos easily over the Web.

For all the people that are unable to attend the meet, at no extra charge you can forward the web link to any family or friends so that they can see the event as well. And if you need video to send along to college coaches, this is a simple way to do it.

Cost: \$60.00 per gymnast
Includes all their routines.
All Taxes included, NO ADDITIONAL CHARGES!
